Tobacco tier poles vertical spacing/ alterations and additions +/- 2 feet +/- 3 feetx_ +/- 4 feet other, list Add. Info.:

Outbuildings: none surviving

Setting and/or Surrounding Land Use: This barn is part of the farmstead that included a relatively large cove of land, including a later dairy operation.

Historic Information: The barn was built by Oscar Young, born 1891. It was built just before he deconstructed and rebuilt a nearby house after being married in 1910. This was the primary utility barn and housed their mules (Bill and Mert), a milk cow, and later a draft horse. The gambrel roof is original according to Gerald Young, born 1930, son of Oscar Young. If that is accurate it is the earliest known gambrel roof among those bars documented to date. It also had a silo at one time, construction not known.
